

THEORY6 – FIRST Team 1241

## Robotics in the Library - Code of Conduct for Participants

As a member of this workshop, I pledge to honor the values of FIRST

- Respect each other in the best spirit of Teamwork
- Behave with compassion and courtesy for others at all times
- Honor the respect of friendly competition at all times
- Act with integrity
- Demonstrate gracious professionalism
- Encourage others to adopt these values

I make a promise to my coach, mentors and fellow team members to behave appropriately at all times and to respect my fellow team member's opinion, decision and work

I realize that every problem has more than one solution. I also realize that a successful team is one in which we consider EVERYONE's solution and ideas. I will not criticize anyone's ideas.

I agree to cooperate on whatever solution my team chooses, even if it is not my first choice.

I or other members of our team will create all solutions, including props, costumes, signs, etc.

I understand that running this team is a big job that we all share; so, I will cheerfully do whatever task I am assigned at each meeting. I will actively participate in the team activities.

I recognize that I am a visitor and I will respect the building, all of the property within it, and the grounds surrounding it. I will not at any time go into any spaces or touch any items outside of what is appropriate for participation.

I will notify my coach if I see something that interferes with the activities of Robotics or in any way violates the Code of Conduct.

Above all, I pledge to be a good team member and to provide my fellow team members with my best efforts, teamwork and attitude.
